

The background is a vibrant blue with a subtle grid pattern. It features several geometric elements: a large, dark blue diagonal band running from the top-left towards the bottom-right; various hexagons in different shades of blue, some solid and some outlined; and a white line graph at the bottom that shows a series of peaks and valleys, with the highest peak reaching towards the center of the image.

## OM SURGICAL

### Philips Auto C-PAP

#### Performance

Our main objective is to provide performance for treatment efficacy. While Bipap AVAPS features clinically proven AVAPS (Average Volume Assured Pressure Support.) hybrid ventilation, both BiPAP S/T and BiPAP AVAPS come with the well-known Philips Respironics algorithm. Digital Auto-TRAK, to ensure optimised patient/ventilator synchronisation.

#### Simplicity

Small, light and quiet, the BiPAP S/T and BiPAP AVAPS have an intuitive interface to simplify access to the ventilation settings.

As both devices come with an expertly designed water chamber and Dry Box technology, water ingress problems are avoided.

## OM SURGICAL

### Philips Bi-PAP-AVAPS & Humidifier

System One Humidity Control closely monitors room temperature, room humidity and flow to determine what is required to maintain the patient-selected humidity level-reducing rainout, even in changing environmental conditions.

Through a combination of our cleverly designed water chamber, plus the advanced new 'Dry Box' addition, the risk of water ingress into the device is virtually eliminated.
